

Patents

1. N.A. Stephenson, Q. Huo, V.V. Guliants, “Zinc-Substituted Zeolite Adsorbents and Processes for the Use Thereof in Gas Separation”, European Patent Application No. 02080028.0, assigned to Praxair Technology, Inc.
2. V.V. Guliants, “Novel Adsorbents for Preferential Nitrogen Adsorption from Other Gases”, European Patent Application No. 00118302.9-2111, assigned to Praxair Technology, Inc.
3. V.V. Guliants, “Novel Adsorbents for Preferential Nitrogen Adsorption from Other Gases”, European Patent Application No. 00118301.1-2111, assigned to Praxair Technology, Inc.
4. J.B. Benziger, V.V. Guliants, and S. Sundaresan, “Vanadyl Pyrophosphate Precursors”, United States Patent 5,728,360, assigned to the Trustees of Princeton University.
5. J.B. Benziger, V.V. Guliants, and S. Sundaresan, “Catalytic Process for the Production of Maleic Anhydride”, United States Patent 5,532,385, assigned to the Trustees of Princeton University.
6. J.B. Benziger, V.V. Guliants, and S. Sundaresan, “Vanadium/Phosphorus Oxide Oxidation Catalyst”, United States Patent 5,401,707, assigned to the Trustees of Princeton University.
